

My End of Year Reflection July 2024

In my last year at Cherry Tree, I have improved my maths skills. I have worked hard for my Entry Level 1 maths qualification.

I have also improved my reading skills and my speaking is the best it has been.

When I first came to Cherry Tree, it was difficult to speak and here I learned how. Now I like to talk and ask my friends questions about their weekend. I enjoy meeting and working with my friends at school every day.

I'm not scared at school because it is so safe. I enjoy lessons. I like the practical lessons and dancing.

I like eating all together at lunchtime. It is great to all be together at the same time. I will tell my friends at college that Cherry Tree is so cool and so nice and has helped me walk and talk and be happy.

My teacher helped me to write this.
