

## **My End of Year Reflection**

In my old old school, I was a bully and I thought it was ok which led to me getting suspended over and over again. That school was not right for me. I missed 6 years of my life because I didn't learn anything in that school other than people made me feel like a bad person. Two of those years I was home schooled and then I came to Cherry Tree. They helped me with so much and slowly but surely I have learnt so much and I have more friends in school. I know more about myself than I ever have and I am going to use these years that I have left to learn as much as can. It is nice to speak to Soo in my one to one time. We talk about loads and I know more about myself now. I love all my lessons (yes RSE as well!). If I am down I just ask to talk to Soo or Emma and they help me. I have come so far in my English and Maths and when people are struggling to do stuff I am helping with everything I can.
