

My End of Year Reflection

This has been my second year at Cherry Tree. I have learnt a lot about myself and others but also in my lessons. This year I have managed to become a gardening lead and grow several different vegetables in the garden, like lettuce, spring onions, carrots and more. This year I have improved a lot in my work, like in vocational I have started on a project which is called **Imagine tomorrow**. This could be from the future or next week: so far it is going great! I also think I have improved well on my communication. I have been able to get more chances to talk and get involved in conversations. In English, I like going to library and I could spend hours in there if I was allowed, also when we did the English quiz. In Maths on the iPad, we have a mental maths game which I have got really good and quick. In Science, I have learnt about the many species that live in the world. I also have been learning about the male and female of a certain species. This year, in ICT I have improved on my coding skills with Scratch. I learned to make a Sprite walk and catch a bus. In World and Current Affairs, I have been looking up the country Turkey. In music tech, I have made several different types of music on the iPad with the game garage band. In PE, we have done several different sports like football, foot golf and basketball. This year we also went to the sports center for badminton. I think I have done really well. For my vocational studies, I have started a paint by numbers which is Pokémon. I have learnt about the rule of law, the House of Lords and the British values which are democracy, rule of law, respect and tolerance individual liberty. In RSE, I have done a lot on body changes, friendships and relationships. Gardening this year has been so much fun, I have become gardening lead, been to the garden center, fed the plants a lot and planted lots of baby plants, which has turned into big plants and we are eating some for lunch, like the spring onions and the lettuce. This year has been great overall and I am well taller than Soo!! (HAHA!) the teachers have been helpful and I have really improved in a lot of my subjects and I have just started my level one English.
