

My End of Year Reflection

I am now coming to the end of my second year at Cherry Tree and the best thing I've achieved is talking a bit more. I am still a little shy but I am overcoming it. The thing I want to achieve is finish a fourth Maths book, English book and Science book. When I am older, I want to be a nursery teacher or truck driver. My favourite lessons are Maths, English, Vocational, ICT, Science and PE also my favourite teachers are Soo and Will. I love everything about the school. My job at school is the Health and Safety assistant. The pupils here are very nice. I now know I don't have to be shy and I can make friends and don't be shy to ask for help. The thing I am looking forward to in my third year is to start my qualifications and to finish my third year at Cherry Tree. If I had to pick one lesson to learn forever it would be Vocational Studies. At Cherry Tree you can learn a lot. The teachers are also very nice even sometimes the teachers will do fun things. We have two new swing balls in the garden and in the pond we have frogs in there. We have after school club. Sometimes for after school club we go in the garden. If you like reading, you will love the English room because there are loads of books and even sometimes we go to the library. We all get our own pencil cases with your name on and your name on a pencil and you will get some colouring pencils.
